Education

B.Sc. in Computer Science   **Sep 2022 - Present**
HITEC University, Taxila
I am an ambitious undergraduate student with a strong passion for data science, machine learning, and artificial intelligence. My academic background is complemented by hands-on experience in Python and C++ development. I have applied my skills to various projects, including the implementation of machine learning models, and have developed a solid foundation in data analysis and statistical methods.
